Dear Tom,

My name is Elizabeth, but my family and friends call me Betty. I am 12 years old and I live with my parents, Joseph and Helen, and my brother George, who is 9 years old, in a small flat in Oxford Street in London. My mum is a singer and my dad is a history teacher. Mum works in Apollo Theatre in West End. It is a very famous theatre in London and my mum works there, because she is very good at what she does. She also teaches singing at a music school near Apollo theatre. My dad teaches at a primary school in Putney. George also goes to this school, but our dad doesn't teach him. George's favourite teachers are Miss Tune and Mr Muscle. Miss Tune is a Music teacher. She teaches George to play the violin. Mr Muscle is a PE teacher. He likes to play football with his pupils. Miss Tune and Mr Muscle teach George's favourite subjects.

I go to a Royal Observatory Secondary School in Greenwich in London. I travel there by bus and train every day. Only on Monday morning my mum takes me to school by car. The school day is from 8:30 to 3:30. I usually leave home at 7:30. My favourite subjects are Art and Design, French and Biology. I do not like Maths and Physics, because I am not very good at these subjects. But I like our Maths teacher, Mr Calculator, because he's very nice. We wear school uniforms at our school. They are blue. It is my favourite colour, so I like them very much.

On Wednesday I have piano lessons with Mr Harmony at the school where my mum teaches. My best friend Katie has her dancing lessons there. Katie lives in a flat next to our flat. So after our lessons at the music school we go home together. Katie can dance very well, but she doesn't play any musical instrument. Katie and I like swimming. We usually go to a swimming pool in a sports centre in our street on Saturday afternoon.

Our flat has two bedrooms, one is my parents' and one is mine and my brother's. In our flat also live my very good friends, Max and Mia. But they are not people, they're our pets. Max is our dog. He is 6 years old and likes to sleep in my bed. My mum says that he can't do it and she wants him to sleep on a rug in the hall, but he doesn't like it. Mia is our cat. She is two years old. Her favourite room is the living room. She likes to sleep on the sofa there. At the moment she is playing with Cheesy. It's her favourite toy, a small mouse with blue fur and pink whiskers.

My mum's parents and their daughter Claire live in a big house with a big garden in Edinburgh. It is the capital city of Scotland. When we come to visit them in summer, I and my brother enjoy playing in the garden. Our aunt hasn't got any children. She is a painter. I like to look at her paintings which are on the walls of my grandparents' house. My favourite painting shows a beautiful girl with long blond hair and blue eyes. It's called *Angela*.

My dad's parents are English, but they live in Dijon in France. Their son Bradley lives in Beaune. It is a small city in France. Bradley's sons, Ben and Billy, don't speak English, they speak only French. It's a very difficult language. I learn French at school, so I can speak with them, but George can't.

What about you, Tom? Please, write me about you and your family. I'm looking forward to your email!

Hope to hear from you soon!

Betty
